Contact: Steve Litzinger, Manager, Marketing and Communications, 479-856-7105

### **FPL September 2017 Youth, Family and Teen Events**

#### **September Closing**

Fayetteville Public Library will be closed Monday, September 4, in observance of Labor Day.

#### **Super Saturdays**

Super Saturdays begin at 10:30 a.m. and take place in the Walker Community Room unless otherwise noted.

#### **Super Scientist Steve Cox**

September 9

Super scientist Steve Cox will present scientific principles with a variety of zany experiments in this high-energy show.

#### **Arts Live Theatre Showcase: Robin Hood**

September 16

Arts Live Theatre will present a showcase of their upcoming adaptation of Robin Hood.

#### **Cowboy Musician Marshall Mitchell**

September 23

Marshall Mitchell will perform his cowboy music for kids.

#### **Comedian and Magician Scott Davis**

September 30

Scott Davis performs a mix of comedy and magic that's certain to entertain both kids and adults.

#### **Beginning Robotics (for fourth – sixth graders)**

September 11 – 14, 4 p.m.

This four-day course for fourth – sixth graders will enable both experienced and inexperienced engineers and future programmers to build and program their own robots. Students will learn all about gears, levers, drivetrains, sensors and motors. In small, collaborative groups, students will produce a VEX IQ competition-ready robot.

Registration is required and opens on August 21.

**WordPlay for Kids (for fourth – sixth graders)**

Tuesdays beginning September 12, 4 p.m.

This six-week workshop for fourth – sixth graders encourages young authors to challenge their creativity with unusual prompts and strategies for developing story elements. Registration is required and opens on August 22.

**Youth LEGO Robotics (for first – third graders)**

Thursday, September 28, 4 p.m.

This new robotics class for first – third graders introduces young students to robotics. Students will build LEGO models featuring working motors and sensors, program the models and explore a series of cross-curricular, theme-based activities.

This class is free, and all supplies will be provided. Registration is required and opens on September 7.

**Teen Events**

**WordPlay for Teens (for seventh – 12th graders)**

Wednesdays beginning September 13, 4 p.m.

This five-week workshop for teens will push young authors' creativity with unusual prompts and strategies for developing story elements. Please note that due to a scheduling conflict, this class will not meet on October 4. Registration is required and opens on August 22.

**Teen Beginner Robotics (for fifth – 12th graders)**

September 18 – 21, 4:30 p.m.

This four-day course for fifth – 12th graders will enable both experienced and inexperienced engineers and future programmers to build and program their own robots. Students will learn all about gears, levers, drivetrains, sensors and motors. In small, collaborative groups, students will produce a VEX IQ competition-ready robot.

Registration is required and opens on August 28.
